

FREE EAR® EAR PILLOW AND FREE EAR® TUBE PRONE PILLOW

The seams are fully welded and impenetrable to moisture and bacteria. The permeable filter repels moisture while allowing air to pass.

The innovative Free Ear® Ear pillow leaves the ear free.

Free Ear® Ear pillow

Filled with siliconised hollow fibre. This is resilient and highly effective in absorbing pressure.

Free Ear® Tube prone pillow

Filled with EPS pearls. The combination of air and pearls serves to reduce pressure.

FREE EAR® EAR PILLOW

The innovative Free Ear® Ear pillow from REBACARE® is patented and leaves the ear free. Its use will help your organisation improve prevalence rates.
